Features

- 2 5/16 Coupler

Description

Our wood floor tilt car trailers are manufactured with a rigid 5 channel frame and tongue. The 8,000 GVWR model adds 4K axles with 225/75 R15 LRD radial tires. The entire bed tilts for loading and is built with all tubing steel construction. 24 toe plates and the gradual loading angle, made possible by a total bed length (with toe plates) of 22, make it possible to load sports cars with low clearance that will not load on standard ramp and dovetail car trailers. A hydraulic damper cushions the lowering of the bed during loading. Standard features on this high quality trailer include a swing up jack, heavy duty diamond plate fenders, four-wheel brakes, radial tires, stake pockets with rub rail, and a sealed modular wiring harness with lifetime LED lights.

- | G.V.W.R.| 8,000 lb.|
- | Electrical| Sealed modular wiring harness with LED lights|
